Subject: Acceptance of Notice of Intention to Commence Small Mining Operation and Requirement to Submit Reclamation Bond, Quality Building Stone, Italian Tan Quarry, S/007/038, Carbon County, Utah

Dear Mr. Hansen:

The Division of Oil, Gas and Mining finds your Notice of Intention to Commence Small Mining Operations complete for the referenced mine. The site has about one acre of existing disturbance, and the enclosed map shows a "new disturbance" area that has been mostly marked on the ground. On this map, the southwest corner has been moved about 20 feet north of the point that was flagged at the site (see comments below and enclosed inspection report).

According to the BLM, the flagged southeast corner should be very close to the boundary between BLM and private land; however, the southwest corner should be about 200 feet farther north than what was flagged. **The Division is not in a position to determine the precise location of the boundary and cannot guarantee whether the flagging is on private or public land.** We suggest—but do not require—that you have the area surveyed to determine exactly where the boundary is located.

Before you begin mining, you are required to submit a reclamation surety and a reclamation contract. The surety amount for this site is \$12,500. A copy of the reclamation contract form is enclosed, but information relating to the form of the surety has been left blank. The reclamation contract requires a map showing the disturbance area.

The reclamation surety can be submitted in the form of a certificate of deposit, a letter of credit, or a bond. Please contact Beth Ericksen at 801-538-5318

Mr. Westin Hansen

for the proper forms for submitting the surety. We will be glad to work with you, your agent, or your banker so the surety can be submitted properly.

Please contact me at 801-538-528 or Paul Baker at 801-538-5261 if you have questions about this approval or if we can help with the reclamation contract.

Sincerely,

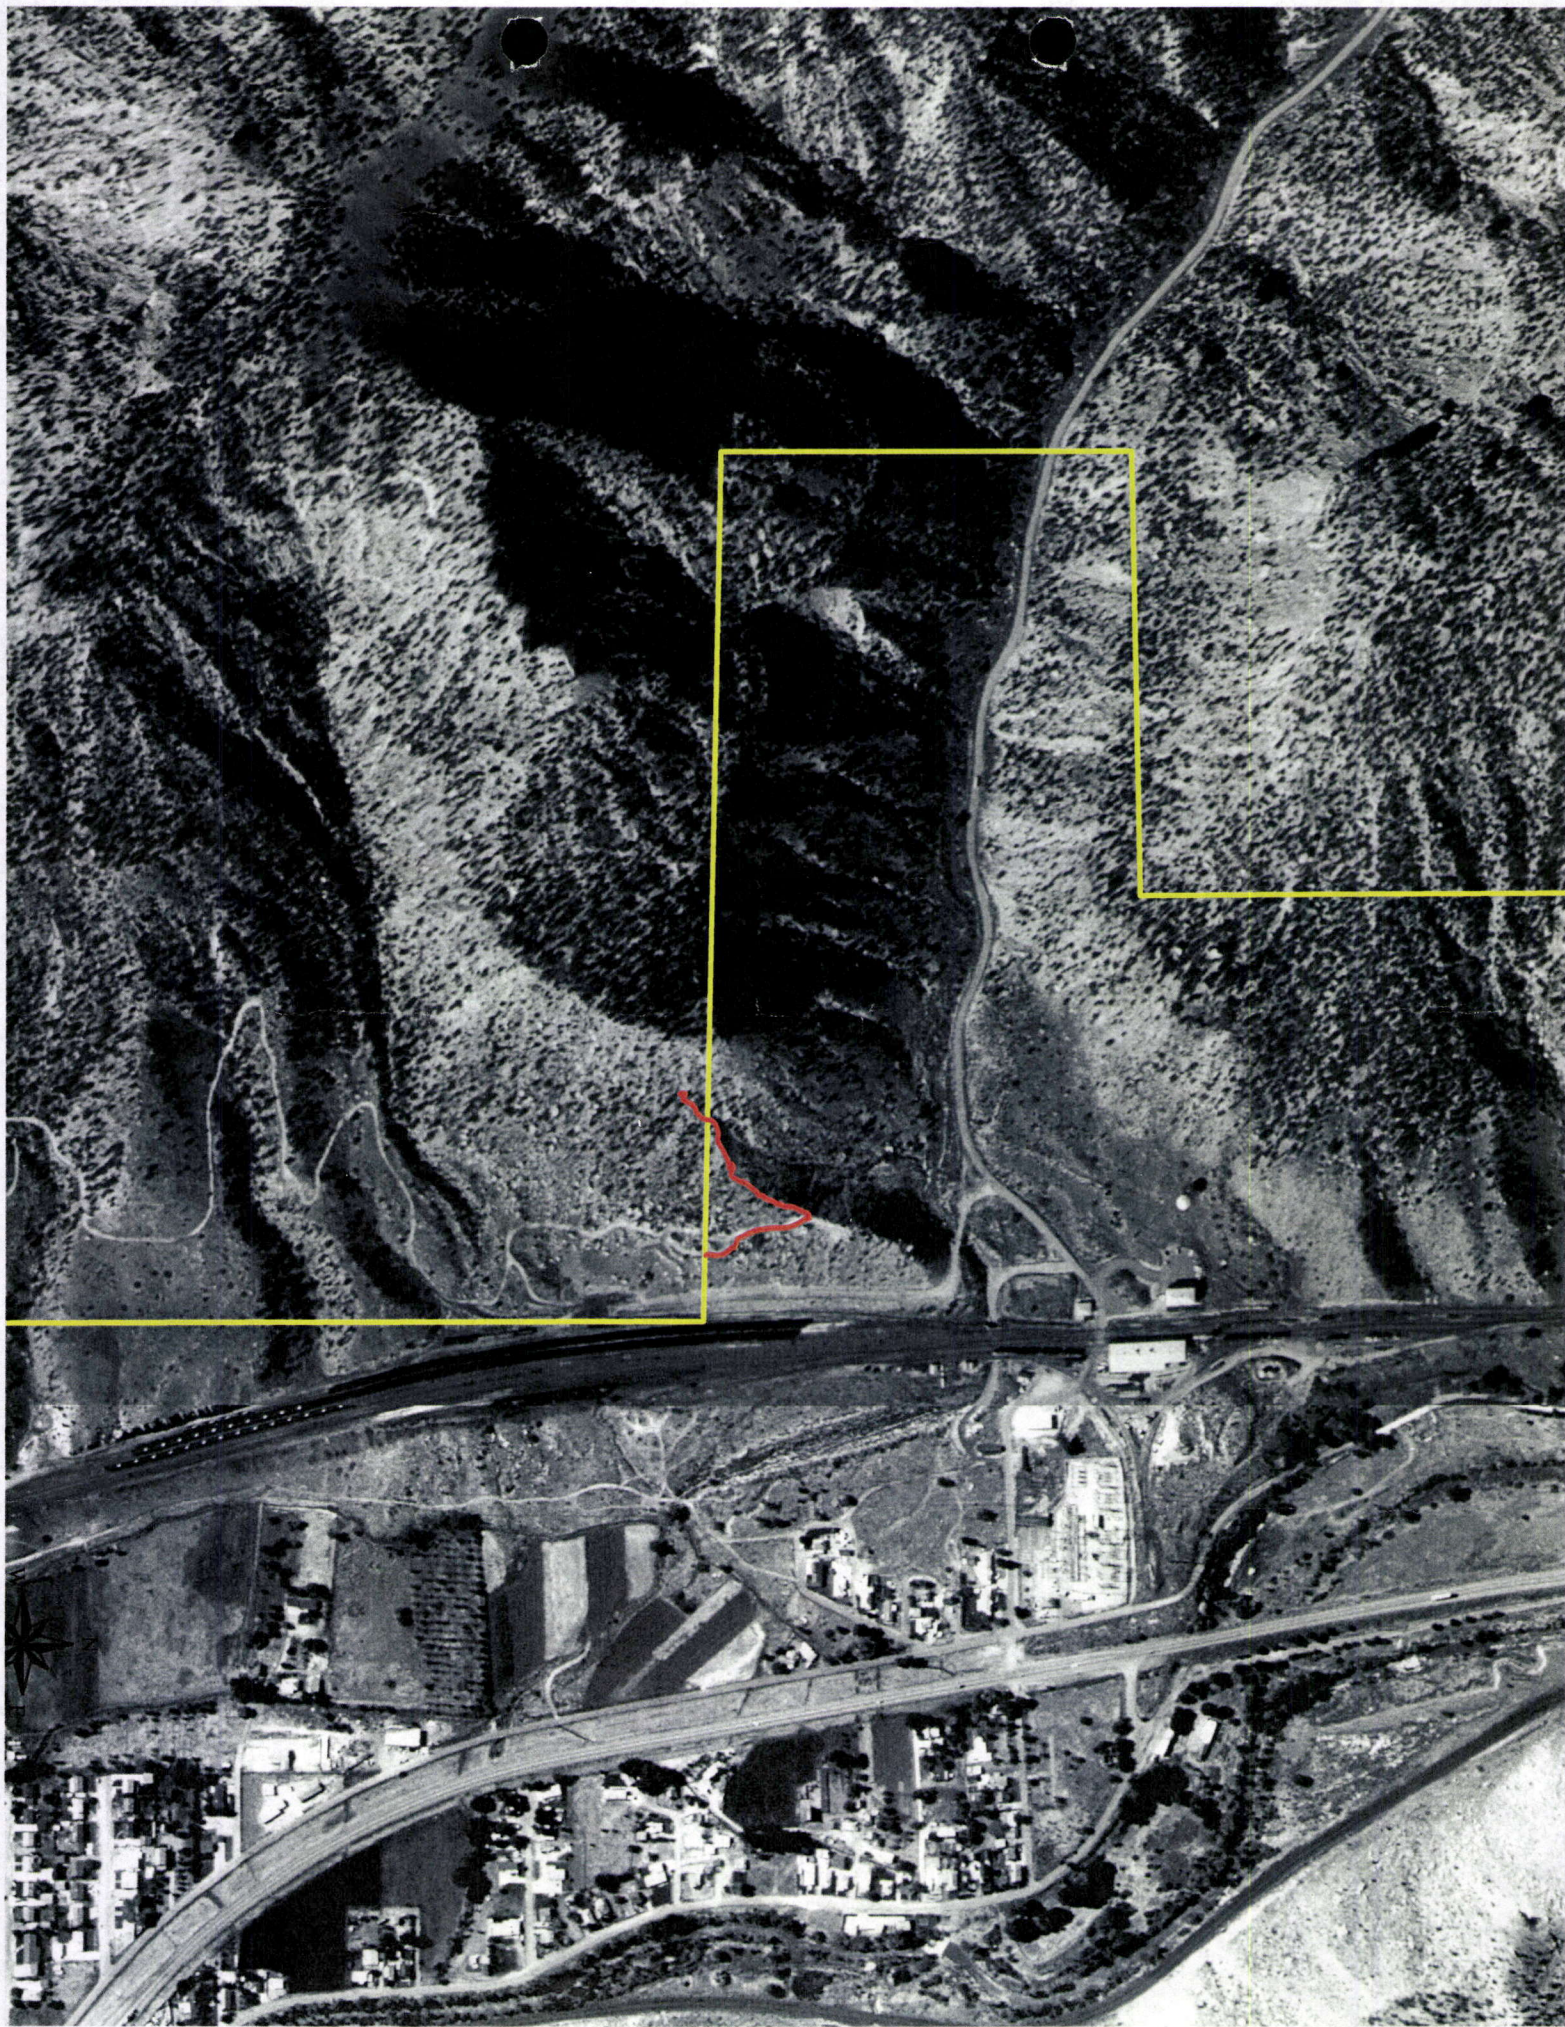

for Susan M. White
